The Use of this Table.

Example. To find the Interest of 70*l.* for 6 Months; Find 70*l.* in the first Column, and right against it, in the Column of 6 Months, is 2*l.* 2*s.* and so much is the Interest. For the Interest of the same Summ in 9 Months, look for the Interest in 3 Months, which is 1*l.* 1*s.* this add to the Interest for 6 months, the Summ is 3*l.* 3*s.* the Interest of 70*l.* in 9 months. Also to find the Interest of 75*l.* for 3 months: First, look the Interest of 70*l.* for 3 months, which is 1*l.* 1*s.* Likewise the Interest of 5*l.* for 3 months, is 1*s.* 6*d.* this added to 1*l.* 1*s.* maketh 1*l.* 2*s.* 6*d.* which is the Interest of 75*l.* for 3 months.

Good Consequence, not formerly Published
in this PROGNOSTICATION.

By WILLIAM DADE, Gent.

LONDON,

Printed by T. N. for the Company of
STATIONERS. 1686.

Of the Four Quarters of the Year

1 6 8 8.

Of Winter.

W Inter Quarter (after the *Astro-
nomers Account*) began the
Tenth of December, 1685.
at 12 of the Clock at
night, and continues till the Tenth of March
this year 1686. So that always the first part
of the Astronomical Winter Quarter, is in one
Politick year, and the later end thereof is in
the other. At which time was the shortest day
of the year, by reason of the Suns greatest de-
clination from the Equinoctial Line.

This Season, of its own disposition, is known
to be cold and moist, contrary to the quality of
the Summer; and, in this Quarter, the inward
parts of Man are very hot, and being healthful,
may receive plenty of Food, because natural
heat, is now comforted, and is gone inward,
and there increaseth, and maketh Digestion the
better.

The Sickneses whereunto this Quarter is
most inclined, are *Rhumes, Gouts, Pustles, Sore-
Eyes, Melancholy, Coughs, Catharrs, Sciatica's,
Falling Sicknes*, Diseases proceeding of Rot-
tenness and Corrupt Humors; with divers kind
of *Infirmities* incident among Women.

Of

Of the SPRING.

THe Spring-time (being the most pleasant and wholesome Season of the Year) taketh its beginning on Wednesday the 10th of March, 44th after 1 in the Morning, when the Sun entereth into the first minute of the Equinoctial point *Aries*, making the days and nights of equal length; which Quarter endeth the 10th of June, when the Sun entereth into *Cancer*.

This season is naturally hot and moist, and is of the Sanguine complexion, being the most temperate and healthful time of the year, and is therefore accounted the fittest time to ease diseased Bodies in, and to restore health again in those in whom formerly it hath been decayed by any kind of evacuation.

The Infirmities of this Quarter are *Melancholy*, *Madness*, the *Falling-Sickness*, *Bleeding at the Nose*, *Hoarseness*, *Coughs*, *Itch*, *Scales*, many *Ulcers*, and small *Apothumes*, the *Gout*, and *Pain in the Joynts*, *Plurisies*, *Dropsies*, *Pestilent Agues*, *Shortness of Breath*, *Fainings*, *Pain in the Head*, *Eyes*, and *Stomach*, *Rotten Fevers*, and other *Strange Diseases*.

Of SUMMER.

Summer (accounted the Third part of the Year Astronomical) taketh always its be-

ginning at the time of the Suns entrance into the first min. of the Solstitial Sign *Cancer*, which is this year on Friday the 11 of *June*, 27 min. after 6 in the Morn. at which time he makes his greatest declination from the Equinoctial towards the North, and causeth the longest day, and shortest night in the year; and so Summer holdeth on till the 12 of *September* following.

In this Quarter the Stomach cannot Digest such hard Meats as it will in the Winter season, for that natural heat is now distributed into the exterior parts, and man is not now so hot within as in Winter.

The Sickneses at this time are divers, as, *Burning Agues, Plurisies, Frensies, Hot Apostumes, Divers pains in the Head, Sundry Inflammations, and New Infirmities*, proceeding especially of *Hot Cholerick Humours*, wherewith many will be sore molested.

Of AUTUMN or, Harvest.

Autumn, or Harvest (being the Fourth, or last Quarter of the Year) beginneth upon Monday the 13 of *Sept* at 51 m. past 3 in the Morning the Sun then making his entrance into the first minute of the second Equinoctial Sign *Libra* working the same effect that he did at his entring into *Aries*, that is, making the days and nights of equal length, rising at six in the morning, and setting at six at night; and
this

this Quarter doth last until the eleventh of December following

The quality of this Season is naturally cold and dry, yet, by reason of its mutability, it is the most unwholesome, by means whereof, it is more subject to sickness than any other: for the dregs of all diseases of the former parts of the year, will now break forth and be seen.

The Diseases of this Quarter are like to be many and dangerous, as *Black Jaundies, Mergims, the Falling-Sickness, Opilations in the Spleen, difficulty of Breathing, Convulsion Fits, Dropsies, Sciatica's, Biles, Toothach, and many more. From which, good Lord deliver us.*

Of the ECLIPSES this YEAR, 1686.

There will be but One Eclipse this Year, and that will be of the Moon, on the 19th of November, at half an hour after 11 at Night, at which time two third parts of the Moons Body will be obscured.

Physical VERSES,

AND

Rules for HUSBANDRY.

Of JANUARY.

IF thou be sick, and help wouldst have,

The Counsel of the Learned crave:

If thou hast health to keep thee so,

Fly Idleness as deadly Poe.

January's Instructions for Husbandry.

This Month set all kind of Fruit-Trees, and Quicksets: In the New of the Moon (the wind and weather observed) you may set Pease and Beans, Parsnips and Oats, if the weather prove mild, and the Moon decreasing.

Of FEBRUARY.

Be choice of Food in any wise,

To keep thee warm also precise:

Beware likewise thou let not Blood,

Except the Learned think it good.

February's Instructions for Husbandry.

This Month set Roses, with all other kind of Plants and Quicksets, sow Pease and Onions as in the Month before (the weather consider'd) you may now Garden for Sallet-herbs, Pot-herbs, and such like.

Of MARCH.

Now Bleed, and Bath, if thou desire,

And Purgé also (if need require)

*Ill humors do in many breed,
Provide in time before you need.*

Marches Instructions.

This Month (in the New of the Moon) Graft,
Set Quick-sets, and Vines, Cut your Hedges
and Vines already growing. Also you may Sow
Onions, Beans and Oats, and all manner of Gar-
den-herbs.

OF APRIL

*Now wholesome Baths thou may'st frequent;
Let Blood also, and not repent:
These are good means thee to defend,
From Grievs, the which on thee attend.*

Aprils Instructions.

In this Month Pole your Hops, sow Barley
and Artichoaks, Barke Trees for Tanners, sow
Hemp and Flax, set Cyterns, Melons and Cu-
cumbers, and furnish and replenish your Gardens
with Summer Herbs.

OF MAY.

*Rise early now this Month of May,
And walk the Fields that be so gay;
From Surfeiting see thou refrain,
Or sure it will procure thy pain.*

May's Instructions.

In the beginning of this Month you may
Sow the Seeds of Summer Herbs, which could
not endure the cold of the forepassed Months.
You may yet Sow Hemp and Flax: Weed your
Hop-Gardens, and take away superfluous
Branches, and Mousse your Gardens.

OF JUNE.

*Drinks New or Sweet, Taste not at all,
For, thereby grows no danger small;
And, to thy self such pastime take,
As may in God thee merry make.*

Junes Instructions.

In this Month (at the Full of the Moon)
Gather your herbs to keep dry for the whole
year, Weed your Corn-fields and Gardens, Set
Rosemary and Gilliflowers, Sow Lettuce, Sheere
Sheep, the Moon increasing.

OF JULY.

*Perfume thy House with Savours sweet,
But such as are for purpose meet,
Abroad as thou in Streets dost go,
Defend thy self from stinks also.*

July's Instructions.

In this Month ply your Haying, Fallow your
Lands for Wheat, Pull up Hemp that is ripe,
get Rue and Wormwood to drive away Fleas
and Moths. Dry Flowers in the shade, and then
sun them a little for fear of corruption.

OF AUGUST.

*As burning Heat will thee destroy,
So shivering Cold will thee annoy;
Let little sleep thee now content,
Purge not, nor Bleed, lest thou repent.*

August's Instructions.

Reap Wheat and Rye, cut down your Oats;
Gather Garden-Seeds, Sow Lettuce and other
Winter

Winter Herbs in the New of the Moon: Use moderate Diet, forbear to sleep presently after Meat, take heed of sudden cold after great heat.

Of SEPTEMBER.

Raw Fruits (though ripe) may Sickness bring.

Unripe much eat, a dangerous thing;

If now a Surfet thou dost take,

When others sleep thou must awake.

Septembers Instructions.

Set Artichoaks, Sow Seeds for winter herbs, gather Hops and Apples, and other Fruits (which are fit to be gathered) about the Full of the Moon, the weather being dry. Cut Quicksets, Sow Wheat and Rye, kill Bees, make Verjuice, Sow Parsnips and Carrets; Remove and set Slips of Flowers; Set Roses, Strawberries and Barbaries; and remove Trees every New Moon till February.

Of OCTOBER.

Warm Cloaths must now provided be,

Also warm Meats are good for thee.

Have good regard thy feet be dry,

Thou shalt avoid much harm thereby.

Octobers Instructions.

Remove your Plants and Trees in the New of the Moon, and about the Full of the Moon gather such Fruit as you left ungathered the last Month. Set all kind of Nuts and Acorns: And cut your Rose-Trees but once in two years if you intend to have store of Roses.

of

OF NOVEMBER.

*If Rheumes do now molest thy Head,
It is not ill to Sweat in Bed;
Feed on good Meats if Stomach serve,
Else seek for that which doth preserve,
Novembers Instructions.*

In the New of the Moon remove young Trees, set Crabtree-Stocks to Graft on; and in the old of the Moon set Pease and Beans, sow Parsnips and Carrets, make Malt, kill Hogs, and make Martimas-Beef.

OF DECEMBER.

Natural

Natural Prognosticks for the judgment of weather.

THE foregoing Rules for the judgment of the weather are such as are deduced from the Aspects of the Planets to the Moon, and among themselves: these here following, are such as are deduced from Philosophical Aphorisms; Therefore

1. The resounding of the Sea upon the shore, and the murmure of Winds in the Woods, when the Wind is not stirring abroad doth shew Wind to follow.

2. The obscuring of the smaller Stars foreshews Tempests.

3. When Stars seem to shoot, Wind comes from that Quarter.

4. If two Rainbows appear Rain follows: But a Rainbow appearing after Rain, signifies fair weather.

5. If the Sky be red in the morning, it is a sure token of Wind or Rain to follow, or both; for the vapors which cause that redness will soon be dissolved.

6. If the Sun or Moon look pale, look for Rain; if fair and bright, fair weather; if red, Wind.

7. If a dark Cloud be at Sun-rising, in which the Sun is soon after hid, it will dissolve it, and Rain will soon follow.

8. If a Cloud appear, and afterwards Vapors are seen to ascend up to it, it portends Rain.

9. If the Sun appear in the East, greater than it usually doth, it is a sign of Rain.

10. If a black Cloud appear in the West about Sun-setting, it will rain that night, or the morning following.

11. If Mists come down from the Hills, or descend from the Sky, and settle in the Vallies, it promiseth fair and hot weather. Also Mists ascending in the evening from the Earth, or Water, shew a hot day to follow.

12. Water Fowls, (as Sea Gulls, Morehens, &c.) when they flock and fly together from the Sea towards the Shore. As also when Land-Fowls (as Crows, Swallows, &c.) when they fly from the Lands to the waters, beating the waters with their wings, foreshews Rain and Wind.

13. If the Circles about the Sun be red and broken, it portends Wind; if thick and dark, Wind, Snow, or Rain, and the same of the Circles about the Moon.

14. The Trefoil Grass, against Rain, swels in the stalk, and standeth more upright.

15. The Wincowpipe (growing in Stubble-fields) if you find it open in the morning, be sure of a fair day to follow.

16. Aches, Hurts, and Corns, do enrieve against Rain, Snow, or Frost.

17. Worms coming out of the Earth, Moles casting up the Earth, Fleas biting more than ordinary, are evident signs of rain to follow.

18. Solid Bodies, as Stone and Wainscot, when they sweat, do foreshew Rain.

Natural

*Natural Prognosticks of Pestilential,
and unwholsome Tears.*

1. **W**hen there are great number of Frogs, Flies, Locust, &c. For these Creatures being ingendred of Putrefaction shew a general disposition of the Year, and constitution of the Air to Putrefaction.

2. When Worms are found in Oak-Apples.

3. Great and early heats in the Spring (and chiefly in May) without Winds.

4. Great drought in Summer continuing to the end of *August*, portend a Pestilenticus Summer the next year.

5. The Small Pox, Purples and Agues in the Summer, and hovering all the Winter, portend a great Pestilence the Summer following.

6. A dry *March* and a dry *May* portend a wholesome Summer, if there be a showering *April* between.

Signs of a Sound and Pure Air.

1. A Sound and Pure Air is made hot presently after the Sun rising, and is made cold immediately after his setting.

2. That which yieldeth a pleasant smell after Rain, clear, and not evaporated, open and lightsome, and when the North-wind bloweth.

3. Where there are Easterly Winds in the Mornings.

Signs of Corrupt and Infectious Air.

1. A Corrupt and Infectious Air is made by the often blowing of the South, or South-East winds,

winds : or by the West, or South-west wind in the evening.

2. When the Air is cold long after Sun-set.

3. When the Air is long hot after Sun-setting.

4. When the Air is long close, cloudy, or thick

How to judge of Diseases by the Urine.

24. Urine in a hot axis, Black, and little in quantity, and stinking, betokens Death.
25. Urine all coloured as Lead sheweth a prolonging of Death.
26. Urine dark, and cleer beneath, betokeneth Death.
27. Urine

27. Urine that shinerh raw and and White (if the skum in the bottom shines not) shews Death.

28. Urine thin in substance, fleeting above like a dark Skie, betokens Death.

29. Urine dirty, stinking, and a dark Skie betokens Death.

30. Urine like Water, with a dark Skie, in a Fever sheweth Death.

31. Urine with dregs in the bottom, mingled like Blood, sheweth Death.

32. Urine Black and thin, (if the sick do loath when he goes to the Stool, and speaks overthwart, or understands not aright) if his sickness goeth not from him, it signifieth Death.

Womens Urines, their Significations.

1. Urine White, heavie and stinking, shews pain in the Reins, Mother and cold.

2. Urine that fleeteth fat above shews pain in the Reins of the Back.

3. Urine with Black contents in the bottom, shews falling of Flowers.

4. Urine with white contents in the bottom, shews much falling of Flowers.

5. Urine coloured as Lintseed shews Death, if shee have the Flux.

6. Urine Red as Gold with a Watery Circle above, shews she is with Child.

7. Urine of a Woman with Child shall have some cleer stroaks, the most part is troubled in a Reddish manner: This token never fails so soon as the Child hath Life: If it be a Girl, the troublesomeness will draw downward, if a Boy upwards, *this fails not.*

8. Urine

8. Urine bright as Gold shews Lust, or a desire to Marry.

9. Urine coloured as White Lead (if she be with Child) sheweth the Child is dead within her— If she be not with Child and the Urine stink, and be coloured as Lead, sheweth the Mother is Rotten. Of the Properties, &c.

Of the Properties, and Natural Effects of the Seven Planets.

Saturn.

Saturn being well posited, is like a grave Counsellor, and a Man of authority thinking of great matters, a lover of Secrets, Diligent, Solitary, Covetous, Studious and a Zelotype— Being evil affected, he is an Abject, a Pick-thank, fearful, given to Solitariness, Sad, Stubborn, Ill-willy, Deceitful, Sloathful, Dull, a Lyar— By nature he hath relation to Husbandmen, Masons, Blacksmiths, diggers in the Earth, Tanners, & the like.

Jupiter.

Jupiter is said to be the greater Fortune, and of Nature is benevolent; Being well situate, he maketh men honest, prone to good duties, pious, magnanimous, vericundious, modest, wise, diligent, liberal, and yet careful of their own— Being evil disposed, he is more prodigal and stout— He signifies, Bishops, Church-Governours, Lawyers, Judges, Governors of Towns and Cities, and Ecclesiastical Persons.

Mars.

Mars being well affected, is valiant, generous, hasty, given to War, fearing no danger, im-

patient of servitude, and injuries, not respecting riches — But being badly seated, he is irascible, cruel, prodigal, a tyrant, a murderer, and the author of discords and seditions — He hath relation to Soldiers, Surgeons, Turks, Fire-works, &c.

Sol.

He is magnanimous, valiant, provident, a giver of long life, and a healthful body — He maketh Men wise, famous, desirous of honors, having signification of Kings, Princes, Dukes, Marquesses, Earls and Potentates.

Venus.

Venus being well situate, maketh men fair spoken, pleasant, fair, delicate in gesture, given to pleasures, sociable, merciful, &c. — But being ill affected, she is effeminate, timorous, a lover of Maids, sluggish, lustful, a Zelotype, and given to idleness.

Mercury.

Mercury being well seated, causeth a sharp wit, maketh men studious, and capable of Learning — Being ill seated, he is subtil, crafty, malicious, and a Lyar — Of Persons, he signifieth Philosophers, Poets, Mathematicians, Scriveners, Merchants, and the like.

Luna.

The Moon maketh men unconstant, fearful, prodigal, studious of Histories, and given to Navigation and Planting — She signifies Embassadors, Legates, Queens, Ladies, also Common People, Fishers, Watermen, and such like.

THe Spirits of Scurvy-Grass, both Plain and Golden, famous for
 curing the Scurvie, Dropfie, and other general Distempers,
 as they were made by the First Author, Mr. Robert Bateman, are
 still continued to be faithfully prepar'd, by a person to whom in his
 life time, he communicated the true Process thereof, and are to
 be Sold at the same House wherein the said Mr. Bateman, lately
 dwelt at Pauls-Chain London, by M. Hooker his sole Executrix
 and nor else where, The Bottles Sealed (as formerly) with his Coat
 of Arms, The half Moon and Ermins, to prevent Counterfeits: These
 are the true Spirits beware of being deceived by upstarts who may
 take the advantage of pretending to them. Of

Of several Diseases incident to
CATTLE,
With their
CAUSES & CURES.

I. FOR the Garget on the Tongue or Throat.

This Disease cometh either of the Blood, or else of eating of Poysonous Grass, as Dogs-Bane, Goose-Foot, or Helmet Flowers, all which are very hurtful or Poysonous both to Beasts and Swine — To Cure this, First blood them in the neck; but if swoln, blood them under the Jaws, against the Throat-Bowl; Then pull forth the Tongue, and cut a Vein that lyeth under it two Inches long, length-way, to let out the corruption, and then wash the Tongue with Vineger, Salt and Burnt Allum. Then for the outside that is swoln, slit the Hide four fingers broad every way, and put therein a good handful of Spear-Grass, Salt and Butter, and stitch some of the hole up again: Then take a lump of Blew Clay, the middle Green Bark of young Elders, a good handful of Salt, and boyl them all together in old Urine for a quarter of an hour or more; Then put thereto a little reased Bacon, and boyl all together till they be thick like Pap. With this being hot, Bath the Beasts face from the Ears downwards towards the slit three times a day. When the Swelling is abated Take Tar Sweet Butter and Bees Wax, and with this mixture anoynt the place, and it will heal presently.

II. How to cure the Evil in Beasts.

This disease may be known, for that it takes the use of their Limbs from them: sometimes it takes them in the Neck, and sometimes in the Legs, and sometimes in both — To Cure this distemper; Take Rosemary,
Sage,

Sage, Unset-Hysope, Woodbine Leaves, of each a good handfull, and two handfulls of Bar-dock-leaves: Boyl all these together in a Gallon of Spring Water, till it come to a Quart; in the liquor dissolve half a pound of Roach Allum, and put it into a Pot well stopp'd to keep it from the dirt; Give six Spoonfulls of this to the Beast, three Spoonfulls in at each Nostril: Give it him thus three times in a Day, till the liquor be spent, and it will recover him.

III. *For the Speed in the hinder Parts.*

This Disease is incident only to Young Cattel between One and Three years old; and it may well be called the Speed, for that it mendeth or endeth in Three days time — To Cure this, Give them Salt and White Wine blended together, and if the Beast be well, Blood it in the Neck; if sick, in the Tale very well. Then cast them, and tie their Feet, and slit a hole two Inches long in the inside of the hin Legs, above the hollow of the Gambrels, and making room with your finger, put into the slit some Speargrass, Salt and Butter. Then give them Rue, Sage, Featherfue and Spurge, ground small and put into a Quart of Ale, Warm. If a Beast be taken with this Distemper while he can stand, he is Cureable, otherwise not.

IV. *For the Pantas.*

This Disease cometh by eating of foul sower Grass, or dry harsh Grass in Summer; To Cure this, Take a Quart of half-churn'd Milk with the Butter in it, then take a Garlick head, peel it and bruise it; a Peniworth of fine Tar, a good handfull of fine Feathers; Beat all these together with a little Soot. Give this mixture to the Beast and it will recover in 24 hours.

V. *For the stinging of Addars and Scorpions, or the biting of a Hedge-Hog or Shrew.*

Take Oyl of Scorpions and Vinegar, with Plantane and Bolcarmonick made thick like a Salve, with which
anoynt

anoynt the place so grieved, three times a Day. Also take Sanguis Draconis, a little Barley Meal, and the Whites of Eggs, beat all these together, and apply a Plaister made of these to the Sore, renewing the Plaister once in 12 hours, and it will heal. This is also good against the Stinging of Hornets.

VI. For the Lungs Growing of any Beast.

Take a Pint of Tanners Ooze, blended with a Pint of New Milk, an Ounce of Brown Sugar-Candy, two Pennyworth of Salad Oyl, two Spoonfuls of Tar, and give the Beast this warm at twice.

Another.

Take Tar, Butter, Garlick and Sugar-Candy, blended all together; Give the Beast two Balls as big as Eggs made of this mixture, and they will mend presently.

VII. For the Withering of a Cow.

Take Coleworts, Mallows, Maidenhair, Mugwort, Bet-tany, Aristolochia; Boyl all these together in Water, and give it to the Beast Milk-warm.

Or

Take Aristolochia and Pepper, Bruise them, and give it to the Beast in White Wine or strong Ale Milk-warm, and it will cause her to cast forth her Latter Burthen or dead Calf, and make her whole for certain.

VIII. For a Beast that makes Elend Water, that cometh by a strain, and issueth through the Bladder.

This Distemper may be occasioned either by a strain, Crush, or Wrench in the Back which may cause some Vein to be broken neer the Kidneys and so may feed the Bladder. Or it may come to a Cow in the Calving, by a Strain. Or by change of Ground and harsh feeding. Take a Swallows Nest Birds and all, and put it into a Morter; and pound the Nest, Birds and Feathers all together, then boyl them in fair Water, putting in to them a good handful of Plantane Leaves and Seeds, Blewbottle, and

and the Roots of Daffadillies, and a little Sumack: Boyl them very well, then strain them and to the Liqueur put a little sweet Wine, and give it to the Beast Milk-warm, fasting. But half an hour before you give him the Drink, let him Blood in the Neck Vein.

IX. For the hardness, or swelling of a Bull or Oxes Pisse, that is bruised by Riding.

Take Holyhawk, Housleek and a little Plantine, stamp them together with Fresh Butter, with which anoynt it twice a Day: And if it be sore, you must cast him, and wash his Sheath and Pisse with White Wine Vinegar very well: And if their be any Cancer or Holes in the Yard, then put some burnt Allum to the Vinegar, and he will mend in three times dressing without fail.

X. To make a Cow take the Bull by Milk.

If your Cow be in good case, and you would have her to take Bull: If you have any Neighbours Cow that is a Bulling, get three Pints of that Cows Milk that is on the Road, and give it to that Cow you would have to be a Bulling, and let the Bull go with her, and she will be a Bulling within six or eight Days.

Let these Ten suffice, and expect others the next Year.
